

MOU MEASURE NO. 2 - LAX ALTERNATIVE FUEL VEHICLE INCENTIVE PROGRAM

This MOU Measure No. 2 is based on LAWA's Air Quality Improvement Measures plan for LAX (LAX AQIM), the LAX Zero and Near-Zero Emission Heavy-Duty Vehicle Incentive Program and is attached to and a part of the MOU between LAWA and South Coast AQMD.

I. PROGRAM DESCRIPTION - Implement an incentive program that will distribute up to \$500,000 dollars in funding to applicants based on the "incremental cost" differential of the zero or near-zero emission vehicles as compared to conventionally-fueled equivalents with a Gross Vehicle Weight Rating (GVWR) of 14,001 pounds or greater by December 31, 2021.

II. PROGRAM TIMEFRAME - Upon execution through 2032.

III. LAWA OBLIGATIONS - LAWA shall:

A. Ensure full subscription of incentive program funding, to the maximum extent feasible, to encourage the deployment of zero or near-zero emission vehicles at LAX.

B. Beginning in 2021, provide the following information to South Coast AQMD on an annual basis by June 1 for each preceding calendar year:

1. Zero or near-zero vehicle VIN number
2. Zero or near-zero vehicle model year
3. Zero or near-zero vehicle GVWR
4. Zero or near-zero vehicle engine model year
5. Zero or near-zero vehicle engine power rating
6. Zero or near-zero vehicle fuel type
7. Executive Order Number for the zero or near-zero vehicle engine
8. Zero or near-zero vehicle annual VMT (estimated)¹
9. List of, and information on, replaced vehicles (e.g., scrapped, moved out of state)
10. An emission inventory for the new near-zero or zero-emission vehicles acquired by LAX operators under the Alternative Fuel Vehicle incentive Program, following the methodology and calculations used to generate the 2017 baseline inventory report for the LAX AQIM.

¹ Vehicle miles traveled (VMT) will be estimated from EMFAC2017 VMT for applicable vehicle size and technology categories in the South Coast Air Basin portion of Los Angeles County, unless CARB updates those activity levels at a future date within the Program.

Emission Inventory
MOU Measure 2 III.B.10.

- I. PROGRAM DESCRIPTION - Implement an incentive program that will distribute up to \$500,000 dollars in funding to applicants based on the "incremental cost" differential of the zero or near-zero emission vehicles as compared to conventionally-fueled equivalents with a Gross Vehicle weight Rating (GVWR) of 14,001 pounds or greater by December 31, 2021.
- II. PROGRAM TIMEFRAME - Upon execution through 2032.

Reporting Year	Emissions						
	<i>tpy</i>	<i>tpy</i>	<i>tpy</i>	<i>tpy</i>	<i>tpy</i>	<i>Mtpy</i>	
	ROG	CO	NOx	PM10	PM2.5	SOx	CO2e
2020	0.240	15.876	0.084	0.0055	0.0055	0.0	2,218.9

LAWA prepared the 2017 emission inventory baseline for the LAX AQIM. LAWA replicated the methodology and calculations used to prepare the 2017 emissions inventory to develop an emissions inventory for this reporting period (calendar year 2020, reporting year 2021). For each incentive vehicle, emission factors are based on the CARB Executive Order that certified the vehicle's engine. EMFAC categories for each vehicle are based on GVWR, EMFAC default VMT and average speeds for each unit.
