South Coast AQMD to Showcase Latest Clean Vehicles, Equipment and Monitoring Technology

DIAMOND BAR – The South Coast Air Quality Management District (South Coast AQMD) will host an in-person showcase featuring the latest in lower polluting trucks, buses, shuttles, and other vehicles and equipment (see full list below). Mobile monitoring laboratories using the latest technologies will also be on display. Many of the vehicles and technologies showcased were funded, developed, and demonstrated through programs at South Coast AQMD. Some of the clean air technologies are available through incentive programs offered by South Coast AQMD.

WHO:

South Coast AQMD Officials
Fleet Owners and Operators
Local & State Officials
Academic Researchers
Other Stakeholders

WHAT:

Latest in low and zero emission trucks, buses, shuttles, and other equipment along with South Coast AQMD mobile monitoring vehicles. The event is free, no registration is needed.

WHEN:

Friday, May 6, 2022
8:00 a.m. to 12:00 p.m.

WHERE:

Parking Lot, South Coast AQMD Headquarters
21865 Copley Drive
Diamond Bar, CA 91765

Why: Fleet owners and operators, local officials, media representatives, academic researchers, members of impacted communities, and other interested stakeholders are encouraged to attend to see and “kick the tires” on prototype/commercial low-emission trucks and learn more about incentive funding for commercially available near-zero and zero emission trucks, buses, and lawn equipment.

VISUALS:

On-Road Vehicles:

- Volvo battery electric Class 8 box truck
- Daimler battery electric Class 6 eM2 box truck and Class 8 eCascadia truck
- Phoenix Motorcars medium duty battery electric shuttle bus
- Hyundai XCIENT Class 8 fuel cell truck
- Toyota/Kenworth Project Ocean Class 8 fuel cell truck
- New Flyer fuel cell electric transit buses and liquid hydrogen station at OCTA
- Achatas Power opposed-piston near-zero emission Class 8 tractor
- Passenger fuel cell vehicle

Off-Road:

- Orange EV Battery Electric Terminal Tractor
- Volvo Construction Equipment battery electric excavator and wheel
- STAX captures and control system for oil tankers display
- Progress Rail battery electric locomotive display

Other Showcased Equipment:

- South Coast AQMD’s mobile monitoring vehicles
- Near-zero and battery electric school buses
- TTSI’s near-zero Class 8 drayage truck
- National Readymix’s near-zero cCass 8 cement mixer
- Commercial Electric Lawn and Garden Equipment
- Booth for South Coast AQMD’s incentive programs

South Coast AQMD is the regulatory agency responsible for improving air quality for large areas of Los Angeles, Orange, Riverside and San Bernardino counties, including the Coachella Valley.
