

Clean Air Choices!

Some cars and trucks use gasoline or diesel fuel, which can make our air dirty. Electric cars and other vehicles that don't use gasoline or diesel help keep our air clean. We can also help by walking or riding a bike instead of driving.

Directions: Circle the pictures of transportation that help keep the air clean. Put an X on the pictures of transportation that make the air dirty.

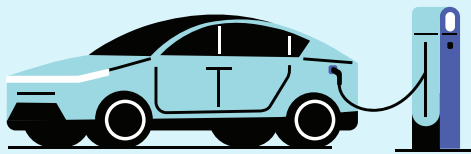

Biking

Driving Diesel Trucks

Walking

Driving an Electric Car

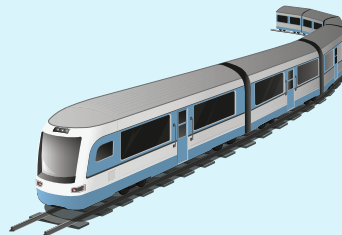

Skating

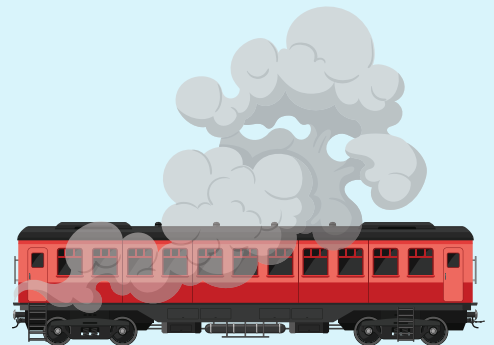

Riding an Electric School Bus

Riding a Diesel-powered School Bus

Riding an Electric Train

Riding a Diesel-powered Train
