The Public Consultation meetings will be conducted via video conferencing (Zoom) which can be accessed via your computer or smart phone. Alternatively, stakeholders can phone-in to participate. We understand that this is not the same as an in-person public meeting; however, staff will take the time to listen to comments from all stakeholders. You are invited to attend the meetings electronically through Zoom or the phone. Instructions on how to participate can be found at the top of this notice.

**Purpose of Meetings**

The South Coast Air Quality Management District (South Coast AQMD) has scheduled two Public Consultation meetings. The primary purpose of the first meeting is to solicit information and suggestions from the public on Proposed Amended Regulation III – Fees. The purpose of the second meeting is to present the South Coast AQMD’s Proposed Budget and Work Program for Fiscal Year (FY) 2025-26 and Proposed Amended Regulation III. These Public Consultation meetings will provide an opportunity for all stakeholders to discuss Proposed Amended Regulation III and the Proposed Budget and Work Program. The Proposed FY 2025-26 Budget and Work Program, fee adjustments, and Proposed Amended Regulation III are scheduled for a Public Hearing before the South Coast AQMD Governing Board on May 2, 2025 (subject to change).

**Regulation III Background**

Regulation III primarily establishes the fee rates and schedules to recover South Coast AQMD’s costs of regulating and providing services to permitted sources.

**Summary of Proposed Amendments to Regulation III**

The proposed amendments to Regulation III consist of several components. First, staff is proposing to amend applicable fees in Rules 301, 303, 304, 304.1, 306, 307.1, 308, 309, 311, 313, 314, 315 and 316 effective July 1, 2025, to correspond with the 3.0% increase in the calendar year 2024 California Consumer Price Index (CPI) under Rule 320 – Automatic Adjustment Based on Consumer Price Index for Regulation III Fees. Second, staff is proposing new or modified fees which are necessary to provide more specific cost recovery for Regulation III rules including but not be limited to Rule 301. The proposed new or modified fees include, but will not be limited to, Rule 1180 and 1180.1 operation and maintenance fees regarding refinery related community air monitoring, and new fees for optional Rule 212(c) public notice distribution. In addition, staff is proposing minor administrative changes that include clarifications, deletions, insertions, or corrections of existing rule language which have no fee impact to Regulation III. These minor administrative changes may include but will not be limited to Rule 301. The proposals which have no fee impacts include but will not be limited to, clarifications on facilities that are not eligible for abbreviated reporting, clarifications that facilities subject to Rule 317.1 are subject to filing annual emissions reports and extending the annual emission report filing deadline for 2025 emissions to May 1, 2026.

**California Environmental Quality Act (CEQA)**

Under the California Environmental Quality Act (CEQA) and South Coast AQMD’s certified regulatory program (Public Resources Code Section 21080.5, CEQA Guidelines Section 15251(l) and South Coast AQMD Rule 110), the South Coast AQMD, as lead agency, is reviewing the proposed project (Proposed Amended Regulation III) to determine if it will result in any potential adverse environmental impacts. Appropriate CEQA documentation will be prepared based on the analysis.
