

Clean Fuels Program Advisory Group

February 2, 2011

Dean Saito, Manager, On-Road Mobile Source
South Coast Air Quality Management District

Light- and Medium-Duty Vehicles

- Sources and Emissions
- Expanding Voluntary Vehicle Retirement
- In-Use Emissions
- Remote On-Board Diagnostics

Definitions

- Light-Duty < 6,000 lbs. GVWR
 - Passenger Vehicles, Light-Duty Trucks, SUVs, Motorcycles
 - Natural Gas, E85, Gasoline, Diesel
 - Hybrid, Electric, PHEV, Fuel Cell
- Medium-Duty 6,000 lbs. < GVWR < 14,000 lbs.
 - MD Trucks
 - LHD Trucks
 - Natural Gas, E85, Gasoline, Diesel

Sources and Emissions

- Passenger Vehicles Account for About 23 percent of ROG; 20 percent of NO_x; and 11 percent PM_{2.5} emissions in the South Coast AQMD
 - Passenger vehicles include: cars, light trucks, SUVs, minivans, motorcycles

Major Contributors to NO_x (2014)

2014 NO_x – 650 tpd

Major Contributors to VOC (2014)

2014 VOC – 569 tpd

Major Contributors to PM 2.5 (2014)

2014 PM 2.5 – 100 tpd

Existing Programs

- Aggressive Emission Standards for New Light- & Medium-Duty Vehicles
- Smog Check for Light- and Medium-Duty Vehicles
- Accelerated Fleet Turnover
- On-Board Diagnostics

In-Use Emissions

- Reducing In-Use Emissions Critical
- How To Effectively Accelerate Vehicle Turnover?
- SIP Commitments for South Coast in 2014:
 - AQMD High Emitter Repair or Scrap (HEROS)
 - 1.4 TPD ROG 0.9 TPD NO_x
 - State's Expanded Vehicle Retirement Program
 - 2.8 TPD ROG 2.4 TPD NO_x

Upcoming Vehicle Scrap & Replacement Incentive Programs in South Coast

- Approved by Board in December of 2010
 - Phase II AQMD High Emitter Repair or Scrap (HEROS)
 - Vehicle Replacement Vouchers AB 118 Enhanced Fleet Modernization Program (EFMP)
 - Coordination with Unocal Settlement Program
- Unique Opportunity to Leverage & Coordinate Among the Three Programs

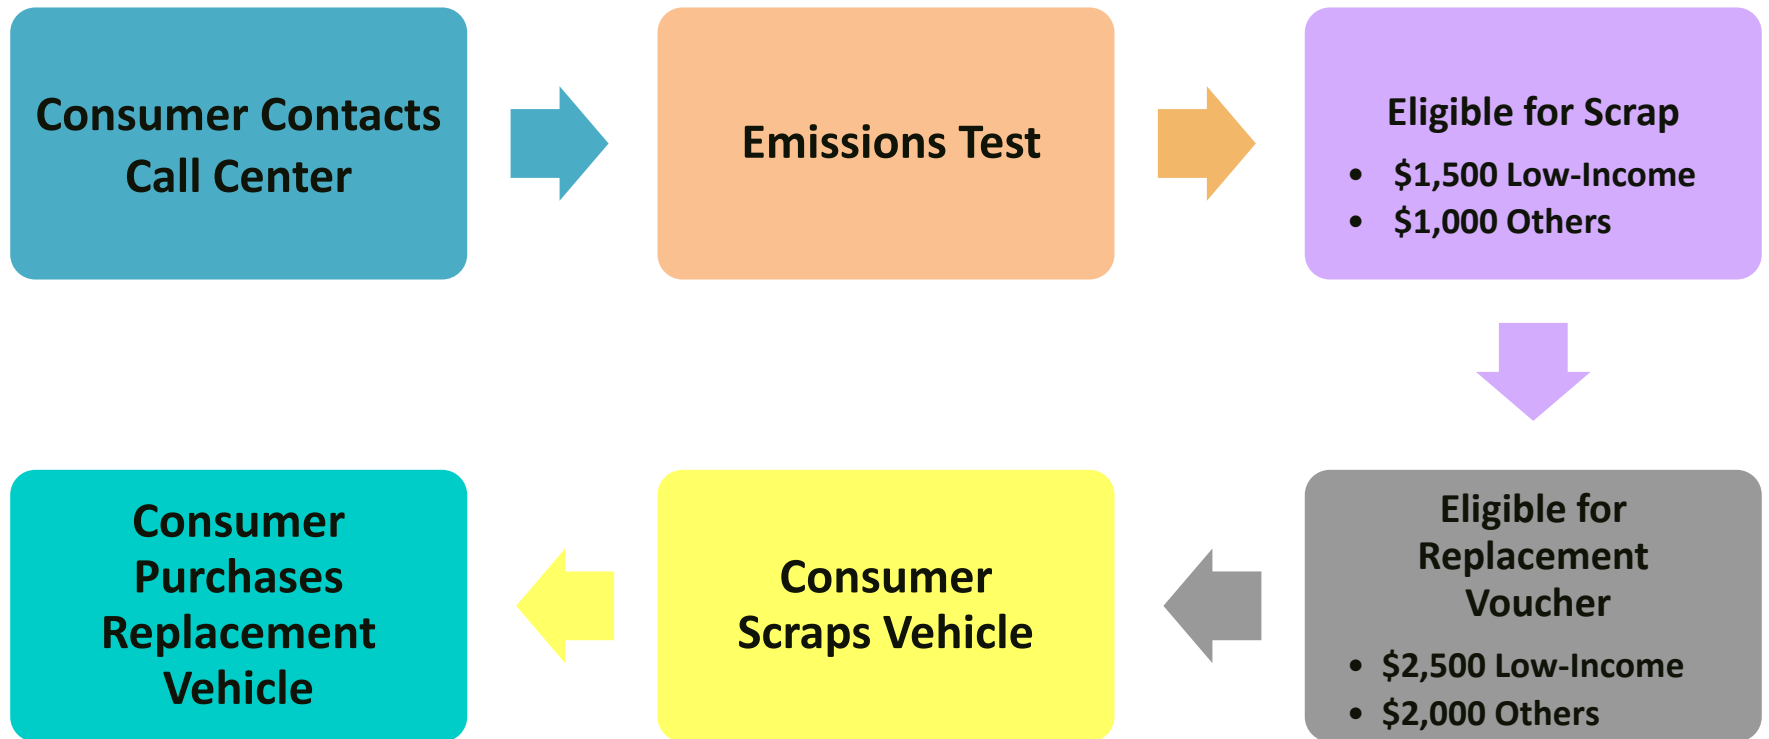

Scrap & Replacement Incentive Programs (Continued)

- Coordination of Three Programs
Transparent to Consumer
 - Common Call Center
 - Matching Incentives
- Scrap Only (No Repairs)
- Replacement Vouchers
- \$3,000 for Scrap & Replacement
- \$4,000 to Low-Income Eligible Participants

Consumer Flow Chart

AQMD High Emitter Repair or Scrap (HEROS) Program

- Need to Meet Moyer Eligibility to Participate
- Phase I
 - Only Opened to High Emitters Identified By Remote Sensing
 - Up to \$500 Repair; or \$1,000 Scrap/ \$1,000 Low-Income Replacement
- Phase II
 - Open to All High Emitters
 - Vehicle Scrap & Replacement Only (No Repairs)
 - \$4,000 Low-Income Scrap & Replacement; \$3,000 Others
 - Scrap of 1,350 Vehicles; Replacement of 1,000 Vehicles

AB 118 Enhanced Fleet Modernization Program

- Expansion & Enhancement of BAR's Consumer Assistance Program
- AQMD Would Administer Vehicle Replacement Vouchers for CARB/BAR
- Replacement of 1,250 High-Emitters

Coordination with Unocal Settlement Program

- Vehicle Repair, Retirement, and Replacement for Motorists Program (VRRRM)
- Would Complement HEROS by Providing:
 - Additional funding for HEROS replacement incentives
 - Scrap & replacement for HEROS-ineligible vehicles
 - Statewide funding for repairs, scrap, & replacement
- Scrap & Replacement of 1,050 Non-HEROS Vehicles;
Replacement of 510 HEROS Vehicles

Benefits

Fund	Project Cost	Vehicle Retirements*	Vehicle Replacements*	Potential Reductions
AB 118 EFMP	\$ 2,708,000	Through CAP**	1,250	34 Tons NOx 67 Tons ROG
Moyer/ Mercedes	\$ 2,923,155	1,350 HEROS	490 HEROS	37 Tons NOx 72 Tons ROG
Unocal Settlement (VRRRM)	\$ 1,050,000 \$ 3,446,063	1,050 Non-HEROS	510 HEROS 1,050 Non-HEROS	29 Tons NOx 56 Tons ROG
Clean Fuels	\$ 189,855	-----	-----	-----
Total	\$10,317,073	2,400	3,300	100 Tons NOx 195 Tons ROG

*Assuming 10% Low Income-Eligible

** CAP is an Existing Statewide Consumer Assistance Program
